05 October 2018

Dear Parent,

We have been looking at ways to update our current facility and would like to make you aware that we are proposing a new school block and remodelling to the existing building to improve the environment and educational provision for our children and community.

We are very excited about the prospect of building a new and updated facility for our school and would like to present our initial proposals to you before these are formally submitted to Birmingham City Council, for consideration as part of a full planning application to gain permission for the development.

We are holding a drop-in consultation event along with BAM Construction and members of their project team, to show the proposals for the new school building and the remodelling of the existing building.

The event is open to all school parents, pupils, and staff, as well as members of the public. It will be held between 3pm and 7pm on Tuesday 18<sup>th</sup> September 2018 within the Upper Hall of our school.

We hope you will take the opportunity to visit and see what is being proposed. There will be an opportunity to provide your comments and ask any questions that you may have on the proposals.

Yours sincerely,

Mr Robin Grover

Interim Headteacher
